Introducing G-BOND™ Universal

Engineered for Predictable Bonding Performance

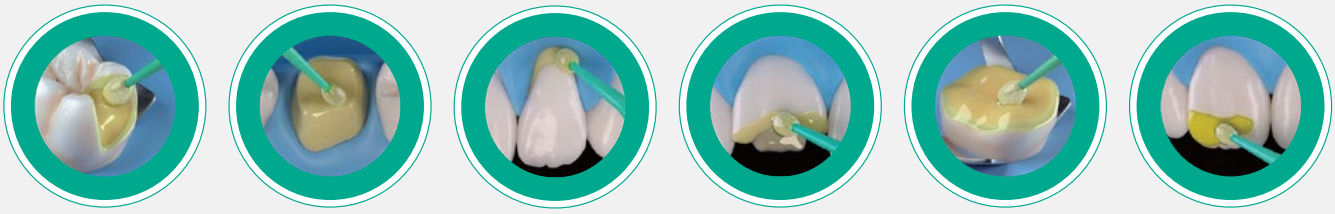

An adhesive that works the way you work

Powered by AAA Technology
Prevent bonding interference: advanced water-free formulation supports versatile application.

- **Reduce technique sensitivity:** Achieve consistent bonding performance across different application techniques – with or without air blow.
- **Simplify your workflow:** 3-in-1 solution functions as a tooth adhesive, restorative primer, and micro-invasive infiltrant - saving time, reducing workflow complexity and lowering costs.
- **Reduce waste:** The flip-top bottle with controlled dispensing enables efficient handling while helping minimize waste.
- **Treat non-carious, white spot lesions conservatively:** Expanded indications support micro-invasive resin infiltration.

Multiple functions - one solution
From direct restorations to indirect cementation and white spot lesions, G-BOND™ Universal brings multiple functions into one streamlined solution. 10-MDP supports bonding to tooth structure, zirconia, and base metals, while the integrated silane coupling agent supports bonding to glass ceramics and composite resin - helping reduce the need for separate primers across procedures. It simplifies your workflow, saves time and reduces inventory cost.

Composite Resin Filling | Immediate Dentin Sealing | Desensitizing | Intraoral Repair | Pre-treatment for Cementation | Resin Infiltration

Buy 2 G-BOND™ Universal Products,
Get 1 G-ænial™ Composite Product or **G-CEM ONE™ Twin Refill FREE!***
