THAT SMILE IS WORTH PROTECTING

Glass Ionomer Surface Protection & Sealant Material

- High fluoride releasing
- Works in a moist field
- No isolation or bonding agent required
- Fluoride rechargeable
- Creates a strong, acid-resistant chemical-bonded layer
The Power to Prevent & Protect

GC Fuji TRIAGE® is not a typical radiopaque glass ionomer. It was designed to prevent fissure caries from developing in newly erupted molars during the first year. It is a high-fluoride-releasing glass ionomer with a free-flowing consistency to ensure effective wetting and intimate adhesion to tooth surfaces. This is especially important during the eruption phase when the occlusal surfaces of permanent molars are at most risk for decay.

This advanced fluoride protection offers your patients protection from carious lesions while increasing the likelihood of remineralization1 – a first for erupted molars that are often hidden and difficult to keep clean.

GC Fuji TRIAGE® is an excellent sealant with anti-leakage technology. Upon application, it forms a semi-permeable skin that, along with its high fluoride levels, helps keep acid attack and bacteria at bay - while allowing calcium and phosphate ions to pass through to strengthen the tooth.

---

**Fluoride Release That Lasts**

With its strong ionic bond and exceptional fluoride release (more than six times that of any other glass ionomer or resin2,3), GC Fuji TRIAGE® creates a fused layer that is acid-resistant and continues to offer protection to the occlusal surface even when it appears to have worn away. Studies have also shown that the fluoride released from GC Fuji TRIAGE® can even be “recharged” by the routine use of fluoride rinses, toothpastes and treatments4.

**GC Fuji TRIAGE® Starter Package**

Contains: 50 capsules, one GC CAPSULE APPLIER III, one CAVITY CONDITIONER (5.7mL) and one GC Fuji COAT™ LC (5.2mL).

- Pink: 439990
- White: 439991

**GC Fuji TRIAGE® 50-Capsule Refill**

Contains: 50 capsules.

- Pink: 001946
- White: 002269

**GC CAPSULE APPLIER III**

Contains: One GC CAPSULE APPLIER III.

**CAVITY CONDITIONER**

Contains: One CAVITY CONDITIONER (5.7mL).

**GC Fuji COAT™ LC**

Contains: One GC Fuji COAT™ LC (5.2mL).
